

PETERS MUCH GRATIFIED BY PROHIBITION PROGRESS

Commands Disposition of People to Aid Officers in Law Enforcement.

HAS 586 DEPUTIES AT WORK

These Will Make Reports to Richmond Headquarters of All Violations—State Chemist to Analyze Temperance Beverages on Sale.

Ten days of the prohibition regime and a comparatively small number of liquor law violations caused Prohibition Commissioner Peters yesterday to express his gratification at the manner in which the people of Virginia are backing up the constituted authorities in the matter of law enforcement.

Business men in practically every branch of trade said Mr. Peters have voluntarily expressed to him their belief that instead of hurting business prohibition will help it. Dealers in the old Market section, long known as a saloon center, said Mr. Peters enjoyed a lively trade last week and from other sections of the city came similar reports.

Mr. Peters indicated his intention to keep close tab on the various temperance concoctions which are flooding the market. Several of those he said will be analyzed by the State Chemist and tested for the presence of alcohol or malt.

IN GRATIFIED BEYOND HIS FONDEST HOPES

"I have been gratified beyond my fondest hopes at the manner in which the people of Virginia are observing the prohibition regulations," said Commissioner Peters. "There are 586 people in the state who are seeing to it that the laws are enforced. They will make reports to me of whatever violations they may see. So far there are only about twenty-five of these reports that have come to me, and they are being closely investigated. Thirty-nine cases have been sent to the grand juries in the state of persons who are charged with violations of the law. They are widely scattered."

"In all parts of the state the officers are observing the law. Several of these were opposed to prohibition, and they are voicing their pleasure at having the spirit of temperance prevail. Some of the most prominent. Nothing could be better than that. But, after the great thing is done, the work must be done the best way possible. I hope those who voted against prohibition are serving the law. There are many communists, of course, who also insist in violating every law. We always have to deal with them."

When an examination of the records of the division shows there was an influx of saloons and places of liquor, the change is easily seen that will impress itself on the mind of any man as one that gives the denial to the claim that there would be as much liquor as ever sold. The Richmond police were directed to pick up all the drinking men that is, when they showed signs of being unable to take care of themselves. They have been on the job. The arrests show what has been done in the way of excessive drinking for the last ten days."

G. O. Moose Strike Over Hughes' Tour May Have Been Factor in Voting.

WASHINGTON, November 11.—The Democratic victory in California, according to the Wilson column, the election being necessary for the selection of the progressive candidate for the primaries later on, said at the time that he felt the manner in which the Hughes tour had been managed might have a serious effect on the Progressive vote.

Mr. Hughes while in California announced that he would take no part in local politics. The Progressive leaders wanted him to recognize Governor Johnson, who was opposing the regular Republican party nominee in the primaries for Senator. Much comment was also caused when Mr. Hughes was taken to a luncheon at the Commercial Club in San Francisco, Saturday, August 13, where the courses

fixes sugar allowance

Petrograd Government Will Issue Cards or Tickets to People of City.

(By Associated Press.)

PETROGRAD, November 11.—The population of Petrograd will henceforth obtain sugar by card or ticket. The allowance per person is fixed at three pounds a month.

Sugar has been very scarce for nearly a year past, owing to dislocation of industrial activity and the vast quantities issued to the army. The newspapers assert that much of the dif-

ficulty has been due to profiteering maneuvers by speculators, but this allegation is discounted somewhat by the fact that the price of sugar has not risen much.
